DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figures 1-6; show first embodiment of the portable utility carrier apparatus;

Species II: Figures 7-8 show an alternate embodiment of the scissors lift system;

Species III: Figures 9A-9D show a third embodiment of the utility carrier system;

Species IV: Figures 10A-10B shown an embodiment with a utility power tool carrier;

Species V: Figures 11 shown an embodiment with a fire fighting tool carrier;

Species VI: Figures 12A shown an embodiment with a campsite kitchen carrier;

Species VII: Figures 12B shown an embodiment with a dual grill catering carrier;

Species VIII: Figures 13 shown an embodiment with a utility tool carrier;

Species IX: Figures 14A-14B shown an embodiment with a domestic equipment carrier;

Species X: Figures 15 shown an embodiment with a emergency medical equipment carrier;

Species XI: Figures 16A shown an embodiment with an alternate embodiment for the hitching assembly;

Species XII: Figures 16B shown an embodiment with an alternate embodiment for the hitching assembly; and

Species XIII: Figures 16C shown an embodiment with an alternate embodiment for the hitching assembly.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

1. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
